

DAY SPA AND THERMAL POOLS

BAGNI DI PISA
TUSCANY

SALUS PER AQUAM CIRCUIT

Bioaquam thermal pool

Pool of hot spring water with natural bicarbonate-sulphate-calcium-magnesium content, fed directly from the source with any chemical treatment.

The water emerges at the source at a temperature of 38° C. The Bioaquam pool unites the health benefits of the natural spring water with those of hydromassage. In the correct order, the treatments have a therapeutic effect on the circulatory and musculoskeletal system: treatments include sculpt hydromassage for body toning, hydro-massage for lymphatic draining, and hydromassage of the buttocks and lumbar region.

Indoor hot spring pool

Pool of hot spring water with natural bicarbonate-sulphate--calcium-magnesium content, fed directly from the source with any chemical treatment. The water emerges at the source at a temperature of 38° C.

Outdoor hot spring pool

Pool of hot spring water with natural bicarbonate-sulphate-calcium-magnesium content, fed directly from the source with any chemical treatment.

The water emerges at the source at a temperature of 38° C. The pool has underwater hydro-massage jets that have a therapeutic effect on the circulatory and musculoskeletal systems.

Minerva bath

Pool filled with fresh water at 35° C. Bain bouillonnant with a series of powerful hydro-massage jets that act on the circulatory and musculoskeletal systems.

Thalaquam

Water element: saline water at 37° C lulls you in total absence of gravity.

Turkish bath and new area with sauna, emotional shower and relaxation area.

Access to the new fitness area.

Bagni di Pisa Kit with bathrobe, towel, slippers, bathing cap.
